About Evofem Biosciences

Evofem Biosciences, Inc., is commercializing innovative products to address unmet needs in women's sexual and reproductive health. The Company's first FDA-approved product, **Phexxi® (lactic acid, citric acid and potassium bitartrate)**, is a hormone-free, on-demand prescription contraceptive vaginal gel. It comes in a box of 12 pre-filled applicators and is applied 0-60 minutes before each act of sex.

In July 2024 Evofem broadened its commercial offering with the acquisition of **SOLOSEC® (secnidazole) 2g oral granules**, an FDA-approved oral antibiotic for the treatment of two sexual health diseases: bacterial vaginosis (BV), a common vaginal infection, in females 12 years of age and older, and trichomoniasis, a common sexually transmitted infection (STI), in people 12 years of age and older. SOLOSEC provides a complete course of therapy in just one dose.

In December 2023, Evofem entered into a Merger Agreement with **Aditxt, Inc.** (Nasdaq: ADTX) under which Aditxt intends to acquire Evofem. The parties reinstated and amended the Merger Agreement, as amended, in May and July 2024, and are working to close the contemplated transaction in the second half of 2024.
